

# ARTIFICIAL INTELLIGENCE AND OUR FUTURE

## Controversy Behind ChatGPT

### DOES CHATGPT ENABLE RESEARCH?

Chat GPT can be both for research purposes or plagiarism. It depends on what is asked for by the student. For example, if a student asks Chat GPT “write me a study guide for this class” then it would be used for research purposes. However, if a student copy and pastes an online quiz question into chat gpt the ai will provide the right answer which will then become plagiarism=sm

### DOES CHATGPT SPARK RECONSIDERATION FOR OUR MAJOR?

As a business major taking tons of classes involving numbers, writing, and human interactions, I feel the program can be seen as a threat and tool!

The One aspect we have over the program is the human interaction, causing mild job security.

### WILL CHATGPT DISRUPT OUR PROFESSION

The software does ensue a threat, as it does for most professions. The program will be used amongst competition to make the best presentations, the best pitches, the best documents etc... Chat-GPT will definitely make our profession very competitive!

### REPLACEMENT OF JOBS

Jobs that artificial intelligence such as ChatGPT is least likely to replace will of course be jobs that require certain manual labor tasks. While robotics may replace some of these jobs, artificial intelligence on its own will not.
